Summary:

Our kindergarten has been involved in the project "The whole Czech Republic reads to children" for several years to support children's interest in books and the development of their reading preliteracy.

The children brought their favourite book to the kindergarten and made an exhibition of the books they brought. They looked at the books with interest, discussed them, borrowed them from each other, and some carefully watched how carefully their book was treated.

A student of the Secondary Pedagogical School visited us to introduce the children to Ladislav Špaček's book – Grandfather, I Already Go to School, with the story: "The First Day at School". Children listened with interest to the story with the child hero and evaluated the actions of the main characters.

Regularly every day, we read a fairy tale book to children after lunch, during which the children relax.

In the afternoon activities, the children met the author of the book Honzík's Journey Bohumil Říha and the illustrator Helena Zmatlíková, they tried to illustrate the story of Honzík's farewell.

Throughout the day, parents had the opportunity to see an exhibition of suitable children's books in the kindergarten premises.
